About Jaivik India Awards

After two successful editions, we now announce the 3rd edition of Jaivik India Awards to recognise and reward unique initiatives and exemplary contributions to the organic sector in India.

Organic agriculture and agribusiness is growing rapidly. Despite disrupted supply chains and distress to farmers worldwide during the pandemic, India registered the highest growth by adding about 3.6 lakh hectares of land for organic cultivation. Jaivik India Awards recognises these extraordinary efforts by individuals and institutions.

About Jury: The Jury will have eminent members from government, organic farmers, researchers, exporters and companies in organics, natural farming and millets. An exhaustive and transparent peer review and selection process will ensure awards are given to worthy and outstanding contributors.

Nominations/ applications* are invited from interested individuals and institutions.

Please submit online before 25 July 2022 | www.iccoa.org/jaivikindiaawards

* Processing fee of Rs 2000 (Farmers are exempted)
